

ROMANIAN-AMERICAN ENTERPRISE FUND

PRESS RELEASE

(November 16, 2007 - For Immediate Release)

NEW INVESTMENT IN LEADING MICROFINANCE INSTITUTION

Bucharest, Romania

The Romanian-American Enterprise Fund announces it has recently signed an agreement for the acquisition of 97% of shares in CAPA FINANCE IFN SA. The transaction is expected to close by mid-December 2007, the completion being subject to various conditions precedent customary for such transaction.

CAPA Finance is one of the leading Romanian microfinance institutions that has gained significant expertise and knowledge in the market over the last decade. RAEF and CAPA have built a solid relationship during the last 10 years, CAPA acting as loans originator for RAEF's micro-lending program.

Talking about this new addition to RAEF's portfolio, Mr. Horia Manda, Vice-President of RAEF mentioned:

"This investment is the most recent confirmation that RAEF Management strongly believes in the financial services' development in Romania. We do foresee a significant growth potential of financial services in rural areas and recognize that CAPA has now a unique chance to capitalize on its regional presence and excellent understanding of this still unexploited market. In addition, RAEF has proven track record in developing financial services operations and together with CAPA's Management is committed to focus efforts to rapidly expand the Company's business. We do understand that a fast growth has to be sustained by adequate capitalization and therefore we envisage, as part of a larger investment plan, an initial equity investment of € 15 million (acquisition of shares and immediate capital increase) and a senior loan facility of US\$ 15 million."

Mr. Adrian Chindrin, CAPA's CEO said:

"RAEF's investment in CAPA represents for CAPA the advancement to a superior stage of its development. In the same time, it confirms the success of a long-term excellent cooperation but also is a strong indication that the Romanian microfinance industry is maturing. Considering both RAEF success in building financial services companies and also CAPA's reputation in providing quality microlending services, we believe we have the necessary ground for achieving our ambitious expansion plans within the next years. For CAPA's employees, having RAEF as Company's major shareholder is the guarantee of a high-professional working environment but also the green light for strengthening CAPA's team"
